

std::true_type

```
graph BT; A["tesseract_common::got_type< A >"] --> B["std::true_type"]
```

A diagram illustrating a relationship between two C++ type traits. At the bottom is a gray rectangular box containing the text `tesseract_common::got_type< A >`. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text `std::true_type`. This indicates that `tesseract_common::got_type` inherits from or is a specialization of `std::true_type`.

tesseract_common::got
_type< A >
