

tesseract\_common/include  
/tesseract\_common/any\_poly.h

```
graph BT; A[tesseract_common/src/any_poly.cpp] --> C[tesseract_common/include/tesseract_common/any_poly.h]; B[tesseract_common/test/tesseract_common_unit.cpp] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: `tesseract_common/include/tesseract_common/any_poly.h`. Below it are two white boxes representing source files. The left box is `tesseract_common/src/any_poly.cpp` and the right box is `tesseract_common/test/tesseract_common_unit.cpp`. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header file.

tesseract\_common/src  
/any\_poly.cpp

tesseract\_common/test  
/tesseract\_common\_unit.cpp
